

Commercial Video Surveillance

Cloud-managed video surveillance for one or many commercial locations

Whether your customers need to cover a single warehouse or a national chain of storefronts, our commercial video surveillance offerings have them covered.

With our intuitive app and flexible storage options, customers can access live or recorded video anywhere, anytime. Advanced features like 24/7 Video Health Monitoring ensure their cameras are always up and running, while intelligent analytics give them valuable insight into what's going on at their business.

Commercial Hardware

- + Rugged, impact resistant casings for the toughest commercial applications
- + Superior IP67 waterproof and dustproof rating for indoor or outdoor use
- + Supports 24/7 Onboard & SVR Recording
- + Supports Business Activity Analytics
- + Power over Ethernet (PoE) design means data and power run over a single cable for less wiring and easier installs
- + Equipped with Perimeter Guard™ capabilities that proactively deter unwanted visitors using the camera's powerful speaker and microphone
Applicable to the VC727P and VC728PF only.
- + Compliant with Section 889 of the NDAA*

Pro Series Cameras

Third-Party Camera Support

Integrate third-party cameras with any Alarm.com for Business account! You can install or use existing cameras that work for your customers while still offering the benefits and capabilities of the Alarm.com platform. Cameras using ONVIF and VAPIX will allow for seamless integrations with the Pro Series CSV.

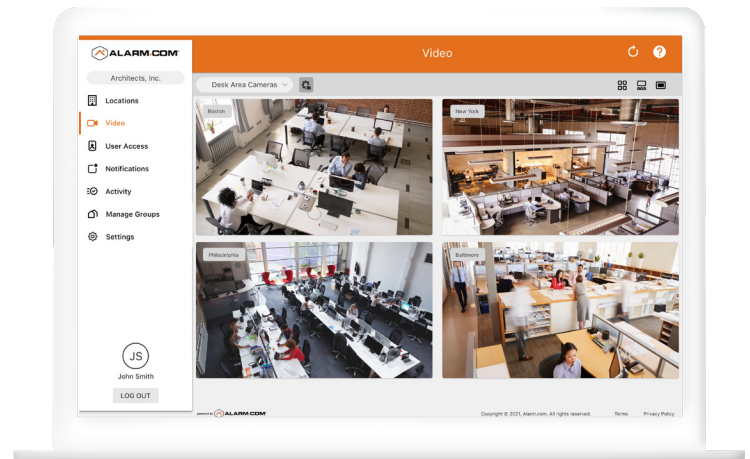

Multiple Locations, One View

Help customers streamline their video surveillance with the Enterprise Dashboard. They can easily organize multiple locations into a top-down hierarchy of groups, share footage quickly, and access live video streams anywhere, at any time, right from their phone.

FOR EXAMPLE, USERS CAN CREATE GROUPS FOR

- + A single location—cameras at one store in Virginia
- + A state or region—cameras at all northeast stores
- + A type of camera—all front door cameras
- + Type and location—front door cameras at California offices

Business Activity Analytics

Help customers manage their business strategically with Business Activity Analytics, an intelligent feature that allows customers to track the movement of people in and around their business.
