

ADC-V530

A Privacy-First Indoor Spotlight Camera

Bring smarter security indoors with the V530, a privacy-first indoor camera featuring crisp 4MP HDR video, spotlight-enabled color night vision, and privacy when you need it most.

Key Features

4MP HDR Clarity

See more of what matters with crisp 4MP HDR video that delivers sharper details and richer contrast, day and night.

Privacy on Demand

An integrated privacy shutter opens and closes based on the rules you set or on demand, giving you awareness when you're away and privacy when you're home.

Color Night Vision

A built-in spotlight lets you capture color video after dark, helping you see the full picture even at night.

Full-Suite of Deterrence Features

Activate deterrence features like lights and warning sounds or add professional monitoring for around-the-clock protection to help stop unwanted activity for your home or business.

Smarter Alerts

Intelligent Video Analytics detect people, animals, vehicles, and business activity, delivering meaningful alerts and insights, so you stay informed about the things that matter most to you.

Serious security without the serious price tag. Ask your security provider about the Alarm.com V530 today.
