AI Deterrence (AID)

Create a first line of defense using AI and Video Analytics

AI Deterrence (AID) takes security to the next level by using AI-generated deterrent responses to build a moat of protection around customer properties.

Building off Video Analytics, AID intelligently identifies and analyzes intruders and surroundings to issue adaptive verbal deterrent warnings.

Key Features

Innovation in Action

Offer a unique service that uses AI to identify potential threats, analyze surroundings, and deliver dynamic audio alerts.

Always on Guard

AID is the guard who doesn't sleep. It provides 24/7 responsiveness and greets unexpected visitors day or night as soon as they're detected.

Swift Response

AID responds faster than a human operator as soon as intruders are detected.

Cost-Effective Protection

AID 's innovative verbal response capability deters intruders at both a lower cost and faster response time than traditional Talkdown.

Person in the black jacket and hat standing under an awning—you are trespassing on private property.
