

Alarm Mode

Diagnose and respond to alarms fast

In a potential emergency, every second counts. With Alarm Mode, get a full-picture view of what's happening at your home or business during an alarm. Swiftly assess the situation and take action by viewing video clip thumbnails, accessing live camera feeds, and reviewing recent system activity—all in one place and in real time.

Key Features

Take a Quick Look

See video clip thumbnails for a closer view of what took place and caused the alarm.

Investigate with Ease

Access live camera feeds throughout the property to check in on what's happening.

Get At-A-Glance Insights

Review related events like sensor and lock activity, detected persons, and more.

Respond with Confidence

Use our signature Cancel/Verify feature to dismiss false alarms or confirm true emergencies with a touch.

Expedite Emergency Assistance

Have your verbal verification passcode handy and request assistance when you need it most.

Make faster, more informed decisions during critical moments and reduce costly false alarm dispatches.
