

Alarm.com for Android Auto™

The Perfect Copilot

Bring Alarm.com along for the ride! Run Scenes, control compatible garage doors, and even arm your panel if you forget to before leaving—all from your car display.

With one-touch automation, timely alerts, and an easy-to-use interface, you can stay connected while on the move and drive with fewer distractions.

Key Features

Smooth Getaways and Warm Welcomes

Activate Home and Aways Scenes for effortless whole-property automation.

Even More Control on the Road

Run custom Scenes to simplify daily routines and control your connected devices with a tap.

Come and Go with Ease

Remotely open and close select garage controllers, plus see the status at a glance.

Real-Time, Actionable Alerts

Stay in the know of important system activity and reminders from anywhere.

For a smarter, safer drive every trip.
