

REVENUE RETENTION SERVICES

# Reduce Customer Attrition, Boost Retention

Introducing Alarm.com's new data-driven service designed to reduce customer turnover and protect your revenue.

Access powerful data analytics and outreach tools to identify at-risk customers likely to move and proactively reach out. Plus, get your foot in the door with potential new customers. This turnkey service offers insights and resources for every step of the customer retention journey.

## An End-to-End Solution

### Early Awareness

Catch customers on the move and improve your chances of retaining their business.

### Save Time and Money

Alarm.com delivers valuable insights by analyzing data, enabling quick and easy decision-making without costly third-party data services.

### Secure New Business

Identify customers who have listed or sold their homes, recapture properties, and increase revenue from newly moved-in homeowners.

### Outreach Made Easy

Use in-program outreach tools to create branded, customer-facing email campaigns and in-app promotions to target these customers.
